## About this table

1. The river height data is the latest available operational data provided for flood warning purposes and has not been quality controlled.
2. Stations marked with \* or # indicate that the data is provided from automatic equipment.
3. Stations marked with \* are Telephone Telemetry Devices and are nominally polled once a day and more often during floods.
4. Stations marked with # are ALERT Radio Telemetry and report every 3 hours and more often when the water level changes.
5. All river height reports are in metres and are shown in local time.
6. Heights or depths above/below roads, bridges, dam spillways and weirs are given as a guide only. For road open/closed information, see the [RACQ](#) website.
7. This product includes data made available to the Bureau by other agencies. Separate approval may be required to use the data for other purposes. Refer to [Listing of Operating Agencies](#) for Station Ownership.
8. Where data is supplied from a Queensland Department of Natural Resources and Mines (DNRM) monitoring site, please refer to advice on [data use and copyright](#).
9. For other Station details: [Flood Classifications](#), [Road Crossings](#), [Survey/AHD Details](#), [Maps](#)

## About this table

1. The river height data is the latest available operational data provided for flood warning purposes and has not been quality controlled.
2. Stations marked with \* or # indicate that the data is provided from automatic equipment.
3. Stations marked with \* are Telephone Telemetry Devices and are nominally polled once a day and more often during floods.
4. Stations marked with # are ALERT Radio Telemetry and report every 3 hours and more often when the water level changes.
5. All river height reports are in metres and are shown in local time.
6. Heights or depths above/below roads, bridges, dam spillways and weirs are given as a guide only. For road open/closed information, see the [RACQ](#) website.
7. This product includes data made available to the Bureau by other agencies. Separate approval may be required to use the data for other purposes. Refer to [Listing of Operating Agencies](#) for Station Ownership.
8. Where data is supplied from a Queensland Department of Natural Resources and Mines (DNRM) monitoring site, please refer to advice on [data use and copyright](#).
9. For other Station details: [Flood Classifications](#), [Road Crossings](#), [Survey/AHD Details](#), [Maps](#)

### About this plot

1. The river height data is the latest available operational data provided for flood warning purposes and has not been quality controlled.
2. Stations marked with \* or # indicate that the data is provided from automatic equipment.
3. Stations marked with \* are Telephone Telemetry Devices and are nominally polled once a day and more often during floods.
4. Stations marked with # are ALERT Radio Telemetry and report every 3 hours and more often when the water level changes.
5. All river height reports are in metres and are shown in local time.
6. Heights or depths above/below roads, bridges, dam spillways and weirs are given as a guide only. For road open/closed information, see the [RACQ](#) website.
7. This product includes data made available to the Bureau by other agencies. Separate approval may be required to use the data for other purposes. Refer to [Listing of Operating Agencies](#) for Station Ownership.
8. Where data is supplied from a Queensland Department of Natural Resources and Mines (DNRM) monitoring site, please refer to advice on [data use and copyright](#).
9. For other Station details: [Flood Classifications](#), [Road Crossings](#), [Survey/AHD Details](#), [Maps](#)
